Message from Mark Chung, Girls Director of Coaching

Dear Boca United staff, players, and families:

I write this letter with great pride and joy. It is a true honor to announce this years 2015 college class as well as our future committed players. This group of players and parents have set the bar high for many of our younger players to follow. It was from the beginning that these parents understood our long term goal of development. They did not steer away from the path and follow other clubs that chased Gotsoccer Points and Trophies.

They now find themselves with the ultimate trophy which is a chance to continue their soccer career another four years. This group has paved the path of our younger players to follow and they have put the Boca United program on the map in terms of a club that develops intelligent and skillful players. College coaches continue to attend our games and training sessions knowing that we will continue to deliver the intelligent soccer player. As a club, we will not chase points but we will deliver players.
