

Safety Captain's Duties

Thank you for volunteering your time to help out your team!

The safety captain will:

1. Control fans from wandering into the playing area, which extends about 10 feet behind the bench, in the direction of the foul lines, and behind the backstop.
2. Manage the on-deck circle.
3. Ensure that only on-deck batter swings a bat. All other players sit on the bench.
4. Organize bats and helmets.
5. Make sure batters are ready with helmets on.

If your team has a "bench coach," which some of the older teams do, he or she will supervise this.
