How Do Super Bowl Squares Work?

- A 10x10 grid of boxes is setup and each row and column are assigned a number from 0 to 9. Each square of the grid can be claimed by pool participants.
- Winning boxes are determined by looking at the score at the end of each quarter. The top row of numbers (horizontal) represents the AFC Champion while the side (vertical) represents the NFC Champion.
- At the end of every quarter, the last digit of each teams' score is used to determine a pool winner.

How is the Pool Managed?

- **After paying the \$10-per-square fee**, participants are assigned a login to the www.RunYourPool.com site by FTBL's Fundraising Chairpersons.
- Participants log into the site and click grid squares to claim them.
- Participant squares are theirs
- At the end of every quarter, the www.RunYourPool.com site will automatically compare the last digit of each team's score is to determine a winner. Participants can use their login to see game results and pool winners.
- FTBL's Fundraising Chairpersons will pay winnings to the winners.
- www.RunYourPool.com will list each individual winner.
- FTBL Board Members Gina Walker and Kate Makowski are FTBL's Fundraising Chairpersons.
- Every Super Bowl pool hosted at www.RunYourPool.com includes a private message board. Only pool members can access it. It's a great way to communicate with members who aren't lucky enough to be with you during the Super Bowl.
