What to expect: You will enter the front lobby escorting your player. You will then register your player at one of the designated registration tables. The player will be given a number. When it is time the player will be called to go with an ELL handler in a small group. The handler will remain with the players through a series of evaluation stations. They will be given the chance to stretch and warm up with in the first two stations. They will be evaluated on speed, throwing, catching, pitching, fielding, awareness and hitting. No parents or guardians will be allowed in the gym and must wait in the lobby.

\* If you are already registered for Spring Baseball with ELL it will speed up the process when registering at the door for evaluations.

**PLEASE Contact ELL if you are unable to attend evaluations.** This is what helps place the player via a draft on their perspective team and division for the year. If you wish to play up a division you must be evaluated. Please refer to our website for age groups for divisions, reminder each player should play two years in each division. If you can not attend please reach out to ELL as it may result in additional charges if the player can be moved.
