

# CAROLINA *Fire*

Dear Business Owner,

The Carolina Fire is a **501c3 Non-Profit Organization** dedicated to the development of the youth of South Carolina. Youth sports help build self-esteem and team work along with sportsmanship for tomorrow's work force. Studies have shown that young ladies involved in sports are more likely to succeed in school and in their careers.

Our girls are earning the privilege to play softball at the next level and receiving athletic and academic scholarships from schools throughout South Carolina and more. Our teams compete at the highest level in their age bracket across the Southeast. Our teams have had the opportunity to play national branded teams and compete at a high level. We have fielded teams at ASA Nationals the last 4 years with our best finish 17<sup>th</sup> out of 140 teams from across the nation. Our younger teams consistently place at tournaments. Our players are a part of their community both on and off the field.

We currently host 3 events in the Charleston area with over 1500 persons in attendance at each event. The advertising we do for the events reach even more. The events we go to range from 100's to 1000's in attendance and one of our teams is playing almost every weekend.

The Carolina Fire organization itself consists of over a hundred families including former players who are still involved from working with our younger girls or volunteering at our events.

We are looking for partners to be a part of all the exciting things these girls are doing. Your sponsorship will help cover player development, team uniforms, equipment, entry fees and travel expenses for the families. Our girls start committing to college during 16u and 18u but the hard work starts at the earliest ages!

We hope that you and your organization will decide to be a part of the Carolina Fire family as well.

Since our first graduating class of 2014 we have had over 50 girls that have committed to a college softball program under scholarship. These Athletic scholarships along with academic scholarships make it possible for these young ladies to work toward their college degree. These are the schools our girls are/will be playing.
