

InterAtlanta FC Community Partners

WHAT

This year, IAFC has developed a new program, IAFC Community Partners, to create a stronger club and forge partnerships between the club, local businesses, and the Inter families and neighborhoods they serve. The program hopes to promote opportunities for businesses to support our club, and for families of the club to engage and support those businesses.

WHY

We thank those businesses who have previously supported IAFC, and hope that they and others will continue to support the club, and that this new program will accentuate the benefits of sponsorship.

NEEDED

You can help make this program successful by encouraging business in the area to participate (perhaps even your own business) as well as thanking and supporting those business in the community that do participate!
