One of the major advantages to hosting is allowing your teams to “play at home” and avoid travel expenses. We want leagues to make money by hosting tournaments. Typically you are charged a hosting fee to host a tournament. We assume you are interested in hosting so your league can make some money. If you are unable to provide a snack bar and or close of the facility, the only advantage becomes playing at home and avoiding travel expense. We can explain this in more detail when we contact you.
