

## **4<sup>th</sup> Grade - Recreational Soccer**

At this age OYAA wishes to encourage, reinforce and promote a player's success in using their technical/foot skills in practice and games. Coaches help refine the kids' ability to dribble, pass and shoot the ball using all surfaces of the foot through repetitions.

The concepts of referees, player roles (attacking, defending, and transition), throw-ins, goal kicks, indirect/direct kicks and offside are introduced. Ask lots of questions and talk with players about roles... "When your teammates have the ball you should..." and "when the other team has the ball, you should...."

**Throw-ins:** The referee will not allow improper throw-ins. No, "do-over" throws allowed.

**Offside:** Off-sides violations are enforced.

**Heading:** Heading the ball is prohibited. Heading the ball intentionally is considered dangerous play; the referee shall award an indirect free kick for the opposing team.

**Punting:** Punting the soccer ball is not permitted. If a goalkeeper punts the ball it is considered a dangerous play; the referee shall award an indirect free kick at the top of the goal box for the opposing team.

**Playing within the laws of the game** is a focus, and the priority is to encourage individual players to take risks, embrace & praise success and failure equally as both experiences contribute to learning the game of soccer.

Players should have the opportunity to play all positions. No one player should play goalkeeper for more than half of a game. Score will be kept.

### **Coaching Goals**

Coaches.... talk with the players in a positive, caring and supporting manner. Make soccer Fun! Teach them to play in small groups, encourage good sportsmanship and caring for teammates and opponents. Yelling at a player/team/referee/opposing team will not be tolerated and is subject to game suspension. By the end of the season players should say "I know ...":

#### Mechanics/Laws of the Game

- What Off-sides means? How to maneuver in space to stay open, get the ball.
- That a ball over the side-line/touchline requires a Throw-in
- After score kick-offs occur from mid-field
- A ball must completely cross the sideline or goal line before it is out of play
- That a ball out of bounds over the goal line is put back in play with either (a) a corner kick by the offensive team, or (b) a goal kick by the defensive team.

#### Soccer Savvy/ IQ; Player Skill Focus For Development

- 1v1 moves...get behind the defender...change of speed and change of direction
- Be aware of their surroundings (i.e. teammates). Can I dribble? Should I pass? Play Defense!!!
