RE: COVID-19 Response Update 2.0

Good afternoon Mudsock Youth families,

Based on Governor Holcomb's order to not allow children back to K-12 school until May 1, we have decided to postpone our spring season start to May 4. Over the next week, we will begin to outline what the season will look like for each spring sport and share with you what the refund or transfer process would be if you and your family decided to forego the spring season. We do not take this lightly and our plans will reflect just this.

We have been working with our partners at the City of Fishers over the past week to limit the amount of interactions our staff and volunteers have with other individuals. Our office began working remotely on March 17th, and many of our leagues have postponed league drafts or moved them to e-meetings. Though these changes have occurred, our commitment to providing your children with a spring season has not wavered. Our organization is successful because of the support we receive from our community of volunteers.

We will continue to issue weekly updates through our email and social channels to provide you the latest news that may affect this timeline. As a reminder, we are monitoring our social channels, facebook.com/MudsockYouth and @MudsockYouth on Twitter, as well as responding to questions via info@myathletics.com within a 24-hour time period. We are still checking our voicemail service regularly, but not with the same frequency of our normal operations.

Like all of us, our children are growing restless as they adjust to this new "normal". We encourage all of you to maximize the time you have with them by playing some modified athletic activities in the living room, in the basement or out in the backyard. Though our postponement still applies to both rec and travel organized team activities, unorganized free play could do all of us some good.

Thank you for your patience,

Scott Spillman  
Executive Director
