

***** FOR IMMEDIATE RELEASE *****

SLGSA Members, Players, and Parents,

Sugar Land Girls Softball Association has been tracking the ongoing COVID-19 pandemic as well as consulting with local and regional civic officials to determine what actions our league should take in these uncertain times. First and foremost we understand the concern and continue to stay well informed with what is taking place in our country, state, county, region, and city. As always our motivation is for the benefit of the young women which our association serves.

With this in mind we have determined, for the protection of these young women and those that love and care for them, to suspend all league activities and close the softball facilities until March 22nd. Any additional changes beyond March 22nd will be announced as decisions are made.

This suspension of activities applies to the League, its sanctioned A-Teams, and any events (including instruction) at Imperial Park. The clinic which was scheduled for tomorrow (March 14th) has also been postponed until a later date as yet to be determined.

We will continue to monitor the COVID-19 situation and update as future decisions are made. Please practice good judgement and hygiene habits as suggested by the CDC as they are the best action you can take to help reduce your risk of infection.

Thank you for your patience and understanding.

Brian A. Benefiel
President
