Future Outlook

by Kyle Lownds / June 1st 2020

It is almost time! We are so close now to getting back out on the fields. There will be opportunities again this summer for players to hone their skills and be around friends. In time, you will begin to see information regarding some of these programs that your players have the chance to participate in. We will be sticking to guidelines outlined for player and coach safety throughout the summer. We have all been away from the game in several aspects and we are very excited to get back to coaching as I am sure the players are also anxiously awaiting the time when they can step back on the fields. The outlook is good and we are nearly there!

Virtual Training Program

by Kyle Lownds / June 1st 2020

Thank you for all the players that made our virtual training program what it was. This program was meant to take the place of a traditional training environment and help players develop on their own. This was also meant to help the players understand one of the core values of accountability. This was a unique situation that we found ourselves in and players that took advantage of this program have definitely seen results. Thank you again for your patience and commitment to the club through this unique time.

ConGRADulations!

by Kyle Lownds / June 1st 2020

We wanted to take a moment to congratulate the seniors that have participated in our club. Their commitment to the sport and to their academics is commended by all of those involved. Each of you should feel accomplished for what you have done! Congratulations to Abby Newkirk, Braydon Kreibich, Kyle Palmberg, Ethan Waldron, Sean Rieck, Roland Hockstedler, and John Benfield. We wish you all the best as you move forward with this new chapter in your life.

Show Us What You Got!!!!

We want to see our players in action! Send pictures and videos to socialmedia@rushwiwest.com of your player working hard!!! Videos work best if they're horizontal.
