

# Printing a Player Form

The Player Form (the normal forms that the coaches have with them) as shown below can be printed by a parent (or regional admin)

Only if you have completed a registration (not if it is just in the cart), but have actually checked out can you print the form. This can be a paid checkout or a completed waitlist checkout.

Log into your account (for region admins: use common → Admin Manual Order and select the parents account). Your “My Account” screen should be displayed listing the participants, if not click “My Account” then in the lower right of the Participant summary click the “View/Print Form”
