

5/27/2020

Dear AYSO Families,

As the AYSO Area1C Director, I would like to reach out to you during this Covid-19 Crisis and provide the current status and planned way forward for AYSO Area1C.

Rest assured that Area1C is committed to use every available resource and plan a Fall AYSO Program for your children. It may not resemble previous seasons, and will have to be tailored to best fit the guidelines set by the local, state and national government.

We all need to ensure the Health and Safety of our children, coaches, referees and volunteers is the top priority. This will require cooperation from all sides.

AYSO Area1C will support all nine Regions to develop and refine the best way for them to provide a World Class Soccer program for all.

I have been meeting with the Regional Commissioners and my Area1C Board to gather up to date information from each Region. This allows us to pool together our thoughts, ideas and plans as to what will work best for each Region. Collectively we have agreed that we have the ability to move ahead and put into place a valid plan to open the Fall AYSO 2020 season.

With each passing day, the path to reopening schools, businesses, sporting events, parks and beaches becomes closer. As just how this will manifest itself into a post Covid-19 normal life is yet to be determined.

There is no doubt that Social Distancing will play a big part in everyone's day to day activities. Just how Social Distancing will affect organized sports is unknown at this time. Any degree of Social Distancing requirements will play a large part as to what type of a Soccer program Area1C will be able provide.

Area1C will remain diligent in pursuing a successful 2020 Soccer Season, be it scaled back to remain within the post Covid-19 Stay Safe at Home guidelines that will be set in place.

If you have any questions or concerns, please feel free to contact me.

Stay Safe,

*Rolando Morales
Area1C Director
