

**BANNERS:**

A team banner can be a fun and rewarding part of the season, but designing and making one requires planning and time.

- Get parents to help!
- Assign someone to bring to the games.
- Purchase the materials. Do not go overboard on expense – you or other parents may have items that can be donated to the project such as glue, paint, sewing materials, PVC pipe, rebar, etc.

Size of the banner should not be any bigger than 4 x 6

If you would like your homemade banner/flag to be judged for the \$25 per division prize money that goes toward your team party, you must bring the banner on picture day. Professionally made banners are not eligible for the prize money. Here is a list of required elements to be included on your banner.
