COVID-19

Region 878 Updates

We understand that this has created a great amount of uncertainty, but please know that as eager as we are to get back on the field, we want to take the responsible steps to help stem the spread of Coronavirus and protect the most vulnerable.

We are currently hoping to continue our Spring 2020 season and be back on the fields to finish our season before the end of July. As we near the date that we can open the season, we will begin to create the new games schedules and send additional communications to the region.

As the situation continues to evolve, we may make other changes but know that with every decision, we vow to make them with you and our families in mind, as we stay true to our vision and mission of enriching families' lives.
