

The Coach Certification Clinics and Soccer Specific Training Clinics are scheduled throughout the Summer:

Safe Haven Certification

CDC Concussion Awareness

Both these classes are available online if the coach cannot attend a class. Check the Region (www.ayso.bluesombrero.com/region85) and Area (www.ayso11L.org) web pages for updated class schedules throughout the local Area.

U6, U8, U10, U12, Intermediate (U14) and Advanced (U16-U19) Training

It is your responsibility to make sure you attend the clinic(s) necessary for you to complete your volunteer coaching commitment.

Classes are available throughout the Area in addition to the ones that will be hosted in our Region. Once dates are posted, find a date(s) that work for you and get out to the training. Clinics are available throughout the local area most weekends during the summer including the Cities of Mission Viejo, San Juan Capistrano, Rancho Santa Margarita, Laguna Niguel, Ladera Ranch, Laguna Beach, Laguna Hills, Aliso Viejo, San Clemente, and various locations in Irvine.

Again, all this information is available on the www.ayso.bluesombrero.com/region85 web site.

To make sure you have all the necessary training, check you volunteer status when in your account. If you do not have the correct training and certification to coach you will be ineligible to coach. This is managed now through the Blue Sombrero site. The only way for you to honor your commitment and coach is to have the age appropriate training and current Safe Haven and Concussion Awareness training completed, and registered on the Blue Sombrero web site.

If you are coaching the younger age groups there are other new requirements that must be adhered to. There is a “build out” line, restrictions on punting the ball, restrictions on heading the ball for certain ages

GO ON THE WEB SITE AND CHECK IT OUT!!

If you still need help, attend one of the field clinics where the new stuff is being trained as these items are relatively new, remember you should be teaching the kids as coach!
