Tim

Since we don't have a quorum, we won't be voting on anything, but we do have somethings to discuss to think about for the next meeting.

In future if there are any special games (games played by teams other than what are on the interleague play forms during regular season, or games played with your tournament teams that are not in a Little League tournament or a tournament not sanctioned by Little League either pre-tournament or post-tournament. If any of these are to be done there must be a Special Games Form filed with Tim. The proposal discussed that will be brought to the board next meeting will be that if this is not followed there will be a **two rotation loss** of Tournament Hosting privileges.

Junior League Baseball, would like to hear of options that might improve quality of play for this. A few items were discussed as in splitting some of the age into Sr League, playing 50/70 or 54/80 to help in transitioning players to the larger diamond. Please bring ideas to the next meeting.

Concussion Protocol; Attached to these minutes are the new concussion forms that this year had to be signed by players and parents before they could take part in Regional Tournaments. Next year this will be mandatory even for Regular Season. It would be good to have these at registration.

Tim was asking about possibility of putting together at District Team for Senior League. More or less the idea was shot down as soon as opened for discussion.

Peru Little League will be offering T-Ball for the 2018 Season.

Training is needed for Baseball and Softball Managers within the District.

There is a serious need for Baseball ADA's within the District.

Brief discussion ensued about Umpires and the fact that we are also short on Umpires that signed-up to do Tournaments.

Meeting adjourned at 2:04 PM.

Tim will let us know when next meeting will be.

Respectfully,
