No final word from Little League as to a Season for 2021. That being said, we as a District feel that we really need to move forward with a Season if we are to exist in the future. Part of this discussion involved the possibility of changing the interleague areas around so that there is less chance of exposure to the virus. Most of our discussions were covering many subjects from Sign-ups for the different leagues being smaller because people just not signing up to things, we can do during games such as wiping with sanitizer the helmets and catcher's gear. Possibility that everyone should have their own batting helmet and not share, and that league may want to look at having 2 sets of catcher's gear.

Mark will contact the Illinois Department of Public Health in LaSalle County to check into requirements.

Tournament schedules discussed a little. Nothing really etched in stone.

Still a real need for ADA in Baseball and Softball.

Next meeting April 27<sup>th</sup> at The Grove Center in LaSalle.  
Rob Ruppert made a motion to adjourn and approved.

Meeting adjourned at 2:15PM.

Sincerely,

Mark L Judy
