

May 10, 2020

Good Evening,

The Executive board met this evening to finalize our 2020 Spring Season. Our normal policy is once Opening Day has happened, there is no more refund requests. However, these being unprecedented times. The board did not feel this is fair. We have gone through all the money collected from registrations and the costs that were spent towards the season prior to the stoppage of play. After a thorough look into what was spent, we will be able to refund all registered individuals with 50% of their initial registration fee.

The next question that many will have is when can I expect to receive my refund? This process is not a quick thing to do. Our plan is to get things out as soon as possible. We hope to have all refunds out to everyone within the next few weeks if not sooner. All refunds will be mailed to you to the address that was listed on the applications that were submitted during the 2020 Spring Registration. If you have moved since that time you will need to send us your information no later than May 15th.

Once again this is something that we as an organization have never gone through. Canceling the season was the last thing we ever wanted to do. We are now beginning to plan for our fall season. There will be some changes coming to the normal format this year for the fall. We are looking at starting our season earlier and possibly playing more games than we normally do. We hope to have this information out to everyone within the next week as well about registration.

Hope to see everyone out there again soon.
