

Cost Saving Measures for your Background Screening Program

Quality
Efficiency
Peace of Mind

We all understand the importance of quality screening to safeguard your league, and with anything of quality typically comes a higher price. We also understand budgeting can be challenging, and this causes many to settle for low-cost background checks. BEWARE, there are many repercussions to poor quality, cheap, non-compliant checks, including creating unsafe environments to volunteer and work in. The GOOD news is there are savings solutions for you to consider without sacrificing quality.

With Verified Volunteers' self-payment features and the cost saving measures noted below, organizations are seeing an average of a **52%** reduction in their overall screening costs!

SAVINGS

Volunteer Optional Contributions

When a coach orders a background check on the Verified Volunteers platform, in the last step of the ordering process, the coach can choose to voluntarily contribute to help offset the cost of the check. Clients report, on average, **40%** contribute which ends up covering **90% of the cost!**

Example: With 50 coaches, the cost of a check is \$9. Total equals \$450. If 40% of your coaches contributed to the cost, your total reduces to \$270, and average cost per check then becomes only \$5.40 - even less depending on size of contribution.

Splitting the Cost

You can set-up your account so that when a coach orders his/her background check, in the last step, it will prompt them to pay for all or part of the check. This can be split any way you want (by percentage or by dollar value).

Example: Cost of a check is \$9.00. If you have budgeted for \$3.50 per background check and you want to keep your cost the same, you can! You can require your coaches to pay the remaining \$5.50 and your original budget remains unaffected.

Community Sharing – Volunteer Fast Pass

Thanks to our Volunteer Fast-Pass, you can benefit from the coaches ability to securely share background checks, free of charge, with multiple organizations within their community. This means your league has the opportunity to access free shared checks too. *Inquire for details.*

How it works: If you pay for your coach's background check, and they share it with another organization (i.e. local school, church, etc.), your league will receive a rebate of up to \$2 per check for the first 2 shares. In turn, if a coach already has a valid check from an organization using VV, the coach can share it with your league for free and there is not cost to you!

✦ **Coaches care deeply about who they devote their time to...contributing a small amount isn't going to deter them from committing their time to doing what they love... Just ask!** ✦
