# Club Renewal Program FAQs

## ***How do you make teams without a tryout?***

Due to these unusual circumstances we have to take into account the NCYSA and North Carolina restrictions and the health and safety of everyone involved in the club. Based on each player's history within the club the staff will share opinions on the best team placement for all players. Additionally, attending several summer session dates will give coaches a view of a more rounded player to be appropriately placed.

## ***Do I have to sign up for the Club Renewal Program without knowing what team my player is going to be on?***

Yes. Our main goal is to place players on the teams we feel they will find success and develop as a player. Throughout the season, players will continue to be evaluated and if a player needs to be a different team within our club, we will go through the appropriate steps.

## ***I have friends that are interested in joining the program?***

Players that are currently registered with another NCYSA club must sign up for NEW Player Registration and get permission (email from club coach/director) from their current club to attend any of the Summer playdates. Players not registered with an NCYSA club can simply register for the NEW Player Registration.

## ***Do current players have to attend tryouts?***

In the event that we are able to host tryouts without any restrictions, current TESC players may attend tryouts at no cost. If there are restrictions place on the number of players that can attend tryouts at a time, current TESC players would encourage not to attend so that we can evaluate any new players.
