

### **ECYB Social Media Policy**

ECYB recognizes that its players and their families use electronic communications and social media to share photographs, videos, and information related to ECYB activities. While social media is a powerful tool for shared communication, others may not appreciate being the subject of social media posts. Social media should not be used to embarrass, bully, or harass others.

ECYB may impose disciplinary action on players, umpires, coaches, parents, family members, or any league member or official, up to and including immediate suspension or removal from the league and all league functions and activities in response to the posting of any social medial content that is deemed inappropriate by a Division President or the Board of Directors. If the disciplinary action is imposed by a Division President, the player or member may file a grievance of the discipline to the Board of Directors, in accordance with the ECYB Grievance Process documented in our current rule book.
