

# ***The Victors Volleyball Club***

## ***Program Philosophy***

Our focus is on training the INDIVIDUAL athlete in a TEAM setting. Our goal is to make every player better at her chosen skill. **We are NOT interested in training groups of athletes in order to make their HIGH SCHOOL team better.**

Several years we reduced the size of our club. In assessing the benefits of having a smaller club to the athletes, we have decided to make that change permanent. Our traditional spring program allows us to have more training time with better coaches for each team. We have up to six courts for practice, which allows for maximum training time for teams without the need to share courts on a regular basis.

**We are planning to run at least one and likely two teams in each of the following age groups: 12&under, 13&under, 14&under, 16&under, and 18&under. We will run as many 10&under teams as we can fill with young athletes.** The numbers could change as we see how many athletes attend tryouts. In fairness to everyone involved in the club, we will offer only as many teams as the available training space and the number of quality coaches available will allow. Each team has an Age Group Coordinator who plans a majority of the training sessions for all the teams. Whether your player is on the best team or the newest team in an age group, they receive the same training.

We know we cannot provide space for all players who wish to participate in our Junior Volleyball program. We are holding tryouts early enough in order for those individuals who do not make our club to be notified in time to try out for another area club.

If our program's philosophy does not fit with your expectations, you have options. Be a good consumer and find a club that has similar expectation to yours. We will both be happier!
