Policies

- **Team Assignment Policy:** We will honor requests for siblings in the same age group to be placed on the same team or on separate teams. Team formation is also based on the availability of a volunteer coach. (Without a coach, we can't have a team.) If there are not enough coaches signed up, we will keep the parents informed as we try to recruit more coaches. If we are unable to place all the players who have registered onto teams, the last ones to register will be the first ones dropped and refunded
- **"Playing Up" Policy:** We do our best to keep previous teams together if age groups fit criteria. We allow suggestions for coaches and siblings playing together but this is not guaranteed. Registering early is in your favor for any requests you are making. Late registrations mean that teams are already built and requests will only be met if space allows. We will not move other players to accommodate later requests

- To be viable, an all-girls team needs enough players.
