New Business: Ideas for the Season

- a) Alisa would like to put a survey out via google docs to the parents asking if the season was to start in June and end in August who is interested in still playing. We will discuss this further at our next meeting on May 19th. Still too early to decide. We may have a modified season, we may have to start after the fourth of July. Have 7 refunds so far. The part time travel teams can't do both house and travel. Sharron to check with managers to see what they would prefer. 8-9 weeks is our normal season, Jack says we can't go past August due to overlap with other sports like football and soccer. May have to combine pinto and mustang. Paul likes the idea of the survey but not yet. Need to come up with a plan for 7U. May run it more like a clinic. With a two hour time slot, practice the first 45 min then play a game. Jacks says do this for the first two weeks. Can we start practicing sooner? Have ½ kids show up then the other ½ come? Have 2 part time 9 U teams, have them play house and put 8 years old with them. Reach out to the 9U managers and ask them. In the survey ask the parents to choose a division. Can't run house with 60% participation. Girls side- Put 8,9,10 year olds together. Have 3 levels on the girls side. Alisa has heard nothing from the travel tournaments regarding cancelations.
