

Missouri Youth Soccer **Event Photographer Policy**

At any Missouri Youth Soccer event, including State Cup, Presidents Cup, Mo ODP, & MYSA Camps, any professional photographer will be free to photograph in the event complex(s) under the following conditions:

- All persons engaged in the taking of photographs with the intent to sell such photographs must have written permission to be within the restricted area (the area fenced or otherwise marked from sideline) from Missouri Youth Soccer Association prior to the start of the event and have Missouri Youth Soccer issued credentials with them at all times.
- All photography personnel must be on the non-player side of the field OR produce documentation of a MYSA Approved Annual Background Check and current SafeSport Certification per US Soccer Policy. Both are done at the sole cost of the photographer prior to the event. At no time can a photographer be on the same side/line with an Assistant Referee.
- Properly credentialed & documented photographers may take photographs from the team side provided they are not on the team Sidelines between the 18s. Photographs should be taken from the top of the 18-yard box back to the end lines.
- Missouri Youth Soccer in no way waives any rights that the individual(s) in the picture may have regarding use and sale of images in which they appear. Any liabilities regarding the public display and sale of images are bore exclusively by the photographer.
