2020 NLL Safety Manual

The NLL Safety Plan is to be distributed to all primary staff. This includes team managers and coaches, umpires, concession coordinator, and the facilities maintenance manager. It will also be made available to all other NLL volunteers. This includes team coordinators, team parents, concession workers, facilities crews, and other volunteers. Copies will be maintained in the Safety Station in the available storage facilities for this purpose.

The NLL Safety Plan addresses the Will Weber Little League Field, Haddon Field at the Municipal Multi-Service Center, and Carnegie Little League Field.

Emergency Procedures

Emergency Plan

The Plan includes emergency procedures for handling injuries, procedure requirements to promote safety, and emergency contacts.

- 1) Will Weber Little League Field is located at Ervan Chew Park, 4400 Dunlavy, 77006.
- 2) Haddon Little League Field is located at the Municipal Multi-Service Center at 1475 W Gray St, Houston, TX 77019
- 3) Carnegie Little League Field is located at Carnegie Vanguard High School at 1501 Taft St, Houston, TX 77019

In case of an emergency, call 911 to contact an ambulance, police, or fire department.

Location of nearest pay phones, fire stations, medical facility:

- There are no pay phones at the field. Before the start of each game or practice session, the umpires and team managers should identify a cell phone that will be available in case an emergency call is required.
- Although a fire station is located within a few blocks of Will Weber field, and medical facilities are located downtown and in the medical center, it is recommended that 911 be called for all emergencies. This allows fully trained medical personnel to assess the situation and transport to the appropriate facility, if required.

NLL Emergency Contacts

The Neartown Little League mailing address is:
Post Office Box 66193, Houston, Texas 77266.

The Neartown Little League President and Safety Officer information follows:

Title	Name	Phone	Email
President	Shannon Petrick	713-256-0051	President2019@neartownll.org
Safety Officer	Trey Christensen	281-782-5817	Safety@neartownll.org

The complete contact list of the Neartown Little League Board is located in the Appendix.

Accident Notification & Tracking

What to report

An incident that causes any player, manager, coach, umpire, or volunteer to receive medical treatment and/or first aid must be reported to the NLL Safety Officer. This includes even passive treatments such as the evaluation and diagnosis of the extent of the injury. Accidents and “near-misses” should be documented and the Team Manager should submit these forms to the NLL Safety Officer within 48 hours of the incident. Copies of these forms are available in the Safety Station, located in the equipment storage shed. If any supplies from the

first aid kit are used during practice or a game, the Team Manager should notify the Safety Officer so the kits may be restocked.

When to report

All such incidents described above must be reported to the NLL Safety Officer within 48 hours of the incident. The NLL Safety Officer, Trey Christensen, can be reached at the following:

Phone: (281) 782-5817

Email: Safety@NeartownLL.org

The NLL Safety Officer's contact information will be posted at all times on the main message board inside each storage facility.

How to make a report -

Reporting incidents can come in a variety of forms. Most typically, they are telephone conversations. Follow-up with a written NLL *Accident Investigation Form* should be made within 48 hours. At a minimum, the following information must be provided:

- The name and phone number of the individual involved.
- The date, time, and location of the incident.
- As detailed a description of the incident as possible.
- The preliminary estimation of the extent of any injuries.
- The name and phone number of the person reporting the incident.

Team Manager's Responsibility -

The Team Manager will fill out the NLL *Accident Investigation Form* and submit it to the NLL Safety Officer *within 48 hours of the incident*. Forms will be available in the file folder in the Safety bin in the storage facility at each field. (NLL *Accident Investigation Forms* can be found in the Appendix of this Plan.)

Accidents occurring outside the team (i.e. spectator injuries, concession stand injuries and third party injuries) shall be handled directly by the home team manager. Refer to the Managers and Coaches Manual for additional guidelines and procedures.

NLL Safety Officer's Responsibilities -

Within 48 hours of receiving the NLL *Accident Investigation Form*, the NLL Safety Officer will contact the injured party or the party's parents and;

- Verify the information received;
- Obtain any other information deemed necessary;
- Check on the status of the injured party; and
- In the event that the injured party required other medical treatment (i.e., Emergency Room visit, doctor's visit, etc.), will advise the parent or guardian of the Neartown Little League's insurance coverage and the provision for submitting any claims.

If the extent of the injuries is more than minor in nature, the NLL Safety Officer shall periodically call the injured party to:

- Check on the status of any injuries, and
- Check if any other assistance is necessary in areas such as submission of insurance forms, etc., until such time as the incident is considered "closed" (i.e., no further claims are expected and/or the individual is participating in the League again).

Volunteers and Workers

Background Checks Requirement

Background checks are required from all volunteers and hired workers. This includes anyone who provides regular services to the league and / or has repetitive access to or contact with players or teams. This includes managers, coaches, team parents, umpires, and board members. All must complete background checks before they may work with the players. Little League International has contracted with JDP to provide local leagues with a special internet site that allows members to search a criminal records database.

NLL used JDP for Background Checks Requirement
2020 Background Checks Completed to Date: 110

Fundamentals

One coach or manager from each team must attend fundamentals training. Training qualifies the volunteer for 3 years, but one team representative is required to attend each year. The fundamentals training covers hitting, sliding, fielding, pitching, and other player skills. Trained volunteers are encouraged to pass their fundamentals training on to their players at practices.

Fundamentals training for team coaches and managers will be held in coordination with other District activities. The Fundamentals training is scheduled for March 28, 2020 at 10:00 AM at the Carnegie Little League Field.

First aid

Safety training is required for all team coaches and managers. Training qualifies the volunteer for 3 years, but at least one team representative is required to attend a NLL first aid training session each year. Licensed medical doctors, nurses, and paramedics are not required to attend the NLL first aid training sessions. Other coaches and managers, who attend first aid training provided by other organizations, must also attend the NLL first aid training. All umpires should also attend safety training.

A Safety training class for all managers, designated coaches, umpires, player agents and team safety officers will be will be scheduled on a date before the start of the spring season. Safety training is scheduled for 25 January 2020 at 10:00 AM at Pecore Hall at St. Stephens Episcopal Church locate at 1805 W Alabama St, Houston, TX 77098.

Concessions

The concessions coordinator should attend safety training.

Safety

Players / Parents

Team members should arrive at the field with the appropriate attire and attitude. Little League requirements for Players Equipment and Uniform are outlined in the Field and Equipment Safety Checklist.

Pre-Game and Practice Field Inspection

Team Managers, or their designees, and umpires are required to walk the field to identify any hazards before the field may be used. Hazards may include glass, rocks, holes, and other potential obstacles. Glass, rocks, and similar hazards should be removed and holes should be filled, where practical. If the field is not safe for use, play cannot commence.

The Home Team Manager should use the Field and Equipment Safety Checklist to document any repairs needed and submit it, as required. This form should include input from the other team officials and umpires on the field. If the Home Team Manager is not in attendance, the Home Team Coach should complete this form and submit it, as required. Documentation should address all components of the field, including the outfield fences, backstop, bases, and grounds. The forms have been printed and distributed to each team for use before every game. A copy of this form is shown in the Appendix and forms are also available in the Safety Station, located in the equipment storage sheds.

Pre-Game Equipment Inspection

Team Coaches should inspect their team's equipment before each use. This includes bats, balls, and personal equipment. If a piece of equipment is not safe for use, it should be removed for repair. If it is beyond repair, it should be destroyed. If equipment repair or replacement is required, the Team Manager, or designee, should complete a Field and Equipment Safety Checklist and submit it, as required. The forms have been printed and distributed to each team for use before every game. A copy of this form is shown in the Appendix and forms are available in the Safety Station, located in the equipment storage sheds.

Players should have required equipment during warm-up, practice, and games. No one is allowed to catch pitches unless appropriately equipped, including during practice and warm-up; this applies to managers and coaches, as well as players. All Coaches, Managers, and Umpires should enforce rules at all times.

Weather

Rain:

If it begins to rain:

1. Evaluate the strength of the rain. Is it a light drizzle or is it pouring?
2. Determine the direction the storm is moving.
3. Evaluate the playing field as it becomes more and more saturated.
4. Stop practice if the playing conditions become unsafe -- use common sense. If playing a game, consult with the other manager and the umpire to formulate a decision.

Lightning:

The average thunderstorm is 6-10 miles wide and moves at a rate of 25 miles per hour. Once the leading edge of a thunderstorm approaches to within 10 miles, you are at immediate risk due to the possibility of lightning strikes coming from the storm's overhanging anvil cloud. This fact is the reason that many lightning deaths and injuries occur with clear skies overhead. On average, the thunder from a lightning stroke can only be heard over a distance of 3-4 miles, depending on humidity and noise around you. By the time you can hear the thunder, the storm has already approached to within 3-4 miles!

If you can HEAR, SEE OR FEEL a THUNDERSTORM:

1. Suspend all games and practices immediately.
2. Stay away from metal including fencing and bleachers.
3. Do not hold metal bats.
4. Get players to walk, not run, to their parent's or designated driver's cars and wait for your decision on whether or not to continue the game or practice.

The WeatherBug App on personal smartphones will be used for lightening detection. This should be used whenever inclement weather is expected or noticed. The scorekeeper should monitor the Detector. If a lightning strike within 12 miles is detected (see notes attached to the detector), the umpire is to be notified immediately. It is recommended that the game be suspended if the lightning strike is within 12 miles and not be resumed until the threat has passed. See the NLL Lightning Safety Procedures, attached to the detectors in the Safety Station for additional guidelines and procedures.

Heat:

Precautions must be taken in order to make sure the players do not dehydrate or hyperventilate.

1. Suggest players take drinks of water when coming on and going off the field between innings. (Drinking fountains are located at the field. Players should be encouraged to bring water bottles, clearly marked with their name, to practice and games.)
2. If a player looks distressed while standing in the hot sun, substitute that player and get him/her into the shade A.S.A.P.
3. If a player should collapse as a result of heat exhaustion, call 911 immediately. Get the player to drink water and use the instant ice bags supplied in the First-Aid Kit to cool him/her down until the emergency medical team arrives.

Ultra-Violet Ray Exposure:

This kind of exposure increases an athlete's risk of developing a specific type of skin cancer known as melanoma. The American Academy of Dermatology estimates that children receive 80% of their lifetime sun exposure by the time that they are 18 years old. The use of sunscreen with a SPF (sun protection factor) of at least 15 is recommended as a means of protection from damaging ultra-violet light.

First Aid

A first aid kit is required at each game and practice session. A list of required items is included in the Appendix. A NLL first aid kit will be maintained in the Safety Station in the equipment storage shed. The umpires will ensure that the first aid kits have all of the required supplies and will notify the NLL Safety Officer of any deficiencies. The Safety Officer will restock the first aid kit, as required.

Accidents and "near-misses" should be documented on the NLL Accident Investigation Form and the Team Manager should submit these forms to the NLL Safety Officer within 48 hours of the incident. Copies of these forms are shown in the Appendix and forms are available in the Safety Station, located in the equipment storage shed. If any supplies from the first aid kit are used during practice or a game, a NLL Accident Investigation Form should be completed and filed and the Team Manager should notify the Safety Officer so the kits may be restocked.

Automated External Defibrillator (AED)

An Automated External Defibrillator (AED) will be maintained in the Safety Station in each equipment storage shed. It is stored in an alarmed cabinet. The cabinet contains the AED unit with an adult electrode pad cartridge installed. The Infant/Child Electrode Pad Cartridge for the AED is also available in the cabinet. The Infant/Child Electrode Pad Cartridge is to be used, instead of the adult cartridge, for patients under 8 years of age or under 55 lbs. in body weight. Note that the pad placement guide is displayed on each cartridge and is different for the adult and infant/child pads.

If the AED is removed from the cabinet for any reason, this should be documented on the NLL Accident Investigation Form and the Team Manager should submit this form to the NLL Safety Officer within 48 hours of the incident. Copies of these forms are shown in the Appendix and forms are available in the Safety Station, located in the equipment storage shed. If the AED is used for any reason, it is critical that the NLL Accident Investigation Form should be completed and filed and that the Team Manager should notify the Safety Officer so the incident data may be retrieved and the electrode pad cartridge and battery may be replaced, if required.

The battery should be ordered for replacement in May 2025. The adult electrode pad cartridges expire March 31, 2022. The infant/child electrode pad cartridges expire March 31, 2022.

Safety Station

A Safety Station shall be maintained in the equipment storage shed by the NLL Safety Officer. The Safety Station will include a copy of this Safety Plan, copies of all reporting forms, NLL emergency contact numbers and procedures, a copy of the periodic Safety Newsletter, and a first aid kit. The Safety Station will also include a secure safety suggestion box with forms. This box will be checked regularly and all suggestions will be addressed.

Safety Newsletter

A safety newsletter will be published periodically. The newsletter will include statistics on incidents at each field as well as safety highlights and suggestions.

Traffic

Parking:

- 1) Will Weber Field has on-street parking only. Vehicles may be parked on Dunlavy, Castle Court, or Lexington Streets. However, care should be taken to ensure that No Parking zones and fire hydrants are kept clear.
- 2) Haddon Field has two parking lots. If space is available, park in the lot location off of Haddon Street, leaving the parking lot located off of West Gray for patrons of the Multi-Service Center.
- 3) Carnegie Field has on-street parking as well as a parking garage.

Facilities & Equipment

Field and Equipment Safety Checklist

A Field and Equipment Safety Checklist form shall be completed by the Home Team Manager before the start of each game or practice session. If there are sequential games or practices scheduled, this form shall be completed by the Home Team Manager to first take the field. However, subsequent Team Managers and umpires should ensure that the field is safe for continued play. Triplicate Field and Equipment Safety Checklist forms, combined with the Player Checklist form, have been printed and distributed to each team for use before every game. Copies of these forms are shown in the Appendix and forms are also available in the Safety Station, located in the equipment storage sheds.

The Field and Equipment Safety Checklist form serves as a check of the field safety and the player equipment. This form also provides requests for maintenance of field or equipment. If any repairs to the facility or equipment are identified, the form shall be submitted to the Safety Officer. The primary procedure is to put the form in the secure box in the Safety Station and notify the Safety Officer.

Game Report Form

Game Report Forms should be completed at the end of play in order to record pitch counts, as well as the score and other game-related documentation. This form is to be submitted to the Game Records Manager within twenty-four (24) hours of the game's completion. The recording of pitch counts is necessary to ensure that players receive the required rest between games.

The Home Team Manager shall ensure that the equipment storage shed and batting cages are locked at the end of play. It is recommended that the storage facility be locked during practice and games to ensure that unauthorized personnel do not have access to NLL equipment and concessions.

Managers and coaches shall enforce Little League rules at all times. Players shall have required equipment at all times, including practices and catchers warming up the pitcher.

Enforcement of Little League Rules

Little League International rules shall be used during all practices and games. The 2020 Little League Baseball Rulebooks are available to coaches and copies will be kept at the field. In addition, the Little League Rulebook App is available for purchase and download. Some points to highlight include:

- Enforce Little League rules including proper equipment.
- Ensure players have required equipment at all times, even catchers warming up during infield.
- Make sure coaches and managers enforce rules at practices as well as games.
- Make sure all fields have all bases that disengage from their anchors, as required starting in 2008.
- Remind managers, coaches they are not allowed to catch pitchers (Rule 3.09); this includes standing at backstop during practice as informal catcher for batting practice.

JDP-Little League Background Checks Overview

The screenshot shows the landing page for JDP Little League Background Checks. The browser address bar shows the URL: <https://www.jdp.com/littleleague/littleleague-backgroundcheck/>. The page features the JDP logo and the Little League logo. The main heading is "LITTLE LEAGUE BACKGROUND CHECKS". Below this, there is a large banner image of a baseball player in a blue jersey with the number 7. The text on the banner reads: "Easily Screen Your League Coaches and Volunteers" and "Ensure Safety For Everyone In Your League". On the right side of the banner, there are three buttons: a red "NEW USER REGISTER NOW!" button, a blue "EXISTING USERS LOGIN" button, and a grey "EXISTING USERS LEAGUE PRESIDENT CHANGE FORM" button. A "Support" button with a question mark icon is also visible. The Windows taskbar at the bottom shows various application icons and the system clock indicating 11:43 AM on 3/1/2019.

The screenshot shows the user dashboard for a JDP user. The browser address bar shows the URL: <https://www.jdpalatine.net/is/app>. The dashboard has a dark blue header with the JDP logo, navigation links for "Order 11", "Reports", "Admin", and "Utilities", and a search bar containing "Last Name". Below the header, a welcome message says "Welcome back, Trey." and "Your last login was on Mar 1st at 10:45 am". The main content area is divided into two columns. The left column is titled "News & Announcements" and contains the following text: "Welcome to JDP, your Risk Mitigation Specialists!", "Visit the [JDP Help Desk](#) to stay up to date on: Federal and State Specific Laws, FCRA and other Consumer Report Resources, FCRA and State Specific Forms, Legislative Alerts", and "Visit the [JDP Client Services Center](#): Client Service Hours: Monday - Friday 7:30am - 9:00pm EST, Client Service Contact Info Including: Live Chat, Email, Phone, System Demonstration, Other User Information". The right column is titled "JDP" and contains contact information: "Phone: 855-940-3232", "Fax: 724-799-8460", "Email: clientservices@jdp.com", and "Address: Oxford One Centre 301 Grant Street Suite 4300 Pittsburgh, PA 15219". The Windows taskbar at the bottom shows various application icons and the system clock indicating 11:45 AM on 3/1/2019.

2			
3			
4			

Pitchers league ages 14 and under must adhere to the following rest requirements:

- If a player pitches 66 or more pitches in a day, four (4) calendar days of rest must be observed.
- If a player pitches 51 - 65 pitches in a day, three (3) calendar days of rest must be observed.
- If a player pitches 36 - 50 pitches in a day, two (2) calendar days of rest must be observed.
- If a player pitches 21 - 35 pitches in a day, one (1) calendar day of rest must be observed.
- If a player pitches 1-20 pitches in a day, no calendar day of rest is required before pitching again.

Neartown Little League

Game Report Form

This form is to be completed by the manager of the winning team after each game in the Majors, Minors, and Machine Pitch Divisions. As quickly as possible, but within twenty-four (24) hours of the game's completion (or suspension), the information on this report must be e-mailed to the Game Records Manager at Scores@NeartownLL.org. An electronic copy of this report is available on the League website at www.neartownlittleleague.com. Reports from Majors and Minors Division games must include the pitch count for each team's pitchers. Completed forms must be kept with the winning team's scorebook and be available for inspection at subsequent games.
