

# Parkway Little League Parent/Player Guide

Summer 2020 Season

Updated: June 29, 2020

- Players that are not feeling well or exhibiting symptoms of possible exposure to COVID-19, such as fever must not attend games, notify their coach and consult their doctor immediately.
- Coaches or players who test positive for COVID-19 should notify the league for purposes of safety, cleaning / disinfecting and contact tracing.
- Face coverings are encouraged for all players and coaches, when not on the playing field, if you cannot socially distance (minimum of 6 ft apart) or when in the designated dugout.
- Players should have their own helmet, bat, facemask and water bottle.
- Each catcher will wear a sanitized set of catching equipment. We are encouraging kids who catch frequently to bring their own catcher's equipment.
- Players must refrain from sharing equipment including bats, gloves and helmets.
- Players should wear batting gloves as much as possible, especially when handling a bat.
- Coaches will have hand sanitizer and/or wipes available for all participants; however, we encourage each player to have their own hand sanitizer.
- Players and coaches will limit any physical gestures of celebrating, including but not limited to high fives, handshakes, fist or elbow bumps.
- When social distancing is not possible (e.g. player injury, mound visits), coaches and players must wear masks.
- No seeds, chewing gum or any food that encourages spitting will be allowed.
- Each team will be responsible for cleaning their dugout area after practice.

Please make sure your child is well equipped and feels safe! Volunteer league officials are doing their best to follow guidelines and provide some normal summer activity this summer!
