

Grand County Soccer Club Dog Policy

GCSC requires all dogs and pets attending the games be leashed (not just under control) at all times. If an incident occurs in which a dog or pet attending has posed a threat to the safety of spectators, players or other dogs and pets in attendance, the offending dog or pet will be asked to be removed from the field immediately. If a dog or pet enters the field during game play or warm-ups or affects game play in any manner, including from the sideline, will be asked to be removed from the field immediately. Dog or pet owners not complying with the request immediately may result in additional action including, but not limited to, the family not being allowed to participate in GCSC events.

Please note the dog policies for away game fields will differ and participants should understand those policies prior to attending those fields with their dogs or pets.

Many away game fields do not allow dogs in the facility during game play.
