

Selection of Managers and Coaches

1. Each year, all candidates interested in managing or coaching are placed on a list that is distributed to all members of the Board of Directors.
2. The names of all interested parties are called and voted on by all of the board members present.
3. The votes are tabulated for each candidate.
4. Each board member votes either Yes or No. It's each Board Members prerogative on how they vote.
5. If a majority of the members present vote in favor of a candidate, that person is approved to manage or coach.
6. Those candidates who fail to secure a majority of the votes cast are not approved to manage or coach.
7. After all candidates are voted on, the League Directors, Vice Presidents and Player Agent select the managers and coaches.

The league has the full authority to reappoint managers/coaches or choose not to appoint/reappoint managers/coaches on a yearly basis. There is NO TENURE involved at ANY position at the local league level.
