

Players and Families,

I am happy and excited to announce that KSC and Nebraska Select will be travelling to Europe again in the summer of 2022!

Our initial tour of London and Paris in the summer of 2019 proved to be an exciting and fun event for those that attended. We have made the decision to make additional, regular visits to Europe to provide those once-in-a-lifetime opportunities for more of our players.

We will be taking a 10 day playing/sightseeing tour of Europe (final destinations TBD) starting in early July 2022. A document is attached to this email that will provide you with sample itineraries and other important details (including cost) of the trip.

We plan on taking two teams on this trip, one team will consist of players born in 2007 - 2009. The second team will consist of players born in 2004 - 2006. The tours are open to all our players, friends, and families.

This tour will feature a series of friendly games against local teams as well as sightseeing in two of Europe's major cities. This email includes informational attachments on the proposed tours as well as information from our previous tour – all to help you become familiar with the tour and process.

In March or April, we will have a meeting or event where we will present a formalized tour proposal sent to us by our tour provider – Premier International Tours. We will then ask all our players/families to make a final decision on attending the tour.

[Tour Information \(Scotland/France & England/The Netherlands\)](#)

We are announcing this event 19 months in advance so that all our families and players have ample time to consider their ability to attend and to plan

accordingly. While we have an initial decision date, players and families can be added to the trip at any time.

This is a great opportunity and experience for our players, families, and club. If you have a question or need further information, please don't hesitate to contact me directly.

Timeline
