

CROSS COUNTRY INFORMATION 2020

CROSS COUNTRY EXPECTATIONS

The TKA Cross Country program is a competitive program. Students participating in Cross Country are expected to put forth their best effort at practices and meets. The minimum expectation of each runner is that they will attempt to run the entire course at their own pace each time they attend practice with the goal of achieving their “personal best” and improving as the season progresses. The coach will determine who is ready for competition when entering athletes in meets. While all levels of runners are welcome to join the team, each runner must take seriously the expectations of the coach at all practices and meets.
