

WHYSL Inc.

Player Equipment

At the beginning of the season the league will provide each player with a team shirt, which they may keep.

All players **MUST** wear shin guards which are to be **COVERED** by socks for **ALL** practices and games. Players should purchase soccer shoes with rubber cleats. Metal cleats and baseball cleats are **NOT** allowed. The shoes are important to the quality and safety of play. A used cleat box is available on most Saturdays in the trailer at Peterson Field.

Every player should bring a soccer ball to each practice. Soccer balls should be clearly marked with the player's name, and the player should be made aware that she/he is responsible for keeping track of it. Please check with your coach before bringing a soccer ball to games. The following sizes are recommended.
