

ONE CLUB. ONE TEAM.

United Against Racism

South Central Premier Soccer Club is making it clear there is **No Room for Racism**. We are committed to equality and diversity.

At South Central Premier, our mission is and always will be, to have a community of families whose student-athletes are serious about developing their soccer skills. Our goal is to foster a “love of soccer” and help each player develop the life skills and character traits necessary to succeed. That goal is for all, regardless of race.

We are committed to work, listen and support our coaches, players, families, supporters, partner clubs, CJSA and US Soccer to ensure that everyone attending or taking part in a SCP related activity has the right to feel safe, valued, and included.

If you witness racist or other discriminatory behavior during our SCP related activities, please report it to your coach and an SCP Board Member. We will be one voice.

SCP Strong!
