

Dear North Plainfield Recreation Parents,

We hope this letter finds you and your family healthy.

Questions have been asked about the current baseball/softball season and exactly what we plan on doing. Honestly, we are now living in a new world, a world of uncertainty. We have no idea as to what the future will bring, so, we sit back, continue to do everything asked of us, be patient and remain safe.

We are refunding all baseball/softball/coach pitch/ and t-ball registration fees within the next two weeks.

If we receive clearance from Governor Murphy, we will attempt to play games even through the end of July. This will be done for FREE.

We recognize that if/when we have clearance to resume activities, many of you may elect to pass and stay home. That is your prerogative as parents. Some parents may feel it's time to go outside, exercise and attempt to resume sports activities.

Understanding this, even though teams were selected well over a month ago, we will select new teams once we know who is interested in resuming play. This will be done at the field.

We will not purchase uniforms for this season. Unfortunately, there will be no trophies and no picnic this year.

If we don't have enough players to play games, we will offer the players a practice/clinic.

If you know of any resident who didn't sign up and is now interested in playing, the parent of the child may register his/her player by filling out a registration form before playing.

Please note our intentions are to attempt to restore what we know as normal. Perhaps establish a new normal.

In closing, this is all predicated on clearance from our governor and mayor.

Please continue to do all of the right things asked of us. Please be safe, protect yourself and your family.

Thank you

Dennis Passe

Director of Parks and Recreation
