

BACK2 PLAY GUIDELINES

as of 8.12.2020

The coronavirus (COVID 19) is an ongoing pandemic that our community, like others around the world, are dealing with on a daily basis. The health and safety of our participants and volunteers remains our top priority. We have been working hard to ensure compliance with all state and local rules and regulations to help mitigate the spread of COVID-19 while still allowing our young athletes the opportunity to participate in sports.

Below you will find the guidelines we have in place that are either state or local requirements or best practices provided by federal, state, and county health and education organizations including the Center for Disease Control (CDC), Indiana State Dept. of Health, Indiana State Dept. of Education, Hamilton County Health Dept. and Westfield Washington Schools. As new information emerges, WYSI will update these guidelines accordingly.

TOGETHER WE CAN

BACK2 PLAY guidelines

- Self Screening
- Face Coverings
- Social Distancing
- Physical Touching
- Sanitation
- Notification of Positive Test

as of 8.12.2020

We ask all WYSI participants, coaches, volunteers, and spectators to follow these guidelines while engaged in WYSI activities:

Self Screening - Before attending any WYSI activity, an individual should take their temperature. Do not attend any WYSI activity if you have a temperature of 100.4 or higher. Additionally, if the individual is displaying any other symptoms of COVID-19 they should not attend a WYSI activity.

Face Coverings - All individuals attending a WYSI indoor activity must wear a face covering. Face coverings are required at outdoor activities when social distancing of 6 feet or more is not feasible. Athletes must wear face coverings during practice and games until physical activity is occurring. The coach will instruct the athletes when it is permissible to remove their face covering. Other exceptions can be found [here](#).

Social Distancing - Coaches should make every effort to have their athletes separated by 6 feet during practices and games. During times when this is not feasible, the length of time where the athletes are less than 6 feet apart shall be less than 15 minutes. All spectators should maintain a distance of at least 6 feet from non-family members.

Physical Touching - High fives, fist bumps, pats on the back, and elbow bumping is prohibited between non-family members *The only exception applies where physical contact is permissible within the rules of the individual sport. Participants are still encouraged to avoid contact when they can.

Sanitation - All athletes and coaches should bring their own hand sanitizer and water to practices, games, and other WYSI activities. Hand sanitizer should be used often throughout each practice/game.

Notification of positive test - Any coach, player, or volunteer who has tested positive for COVID-19 should notify WYSI by completing [this form](#). This will allow us to notify the coach and families of the other parents. The name of the individual testing positive will not be shared by WYSI unless express consent is provided by the individual or their parent/guardian if under the age of 18. If multiple players on a single team test positive for COVID 19, a quarantine of the entire team or partial team may be required.

general reminders

as of 8.12.2020

General reminders

- ★ Before coming to any WYSI practice, game, or activity have your temperature checked. If it is 100.4° or higher, stay home.
- ★ Stay home if you are sick or a household member is sick or awaiting the results of a COVID test.
- ★ Before coming to practice/games, wash/sanitize your hands.
- ★ Maintain 6 feet between yourself and the other athletes when not involved in activity
- ★ Bring hand sanitizer and a full water bottle to each practice/game.
- ★ Cover your mouth when you cough or sneeze.
- ★ Avoid touching your face (eyes, nose and mouth).
- ★ Don't share anything with other athletes.
- ★ Avoid physical contact when not involved in activity (i.e. high fives, hugs, fist bumps).
- ★ Avoid spitting.
- ★ Avoid blowing your nose around others.
- ★ Clean/sanitize all equipment and gear when you get home.
