

Policy Number 007 Refunds

Policy Objective

(A) To discourage parents from signing their children up for several youth activities and then withdrawing from those that don't fit their needs.

(B) To allow for responsible budgeting and purchasing by the association for upcoming seasons.

Policy

It will be the policy of the association to **not issue refunds** except in the following circumstances:

- 1) The child becomes injured before the third game in any season and has a medical referral that indicates he/she cannot participate for the remainder of the season.
- 2) The child is withdrawn because of league physical restrictions concerning weight or height.
- 3) The association does not field teams in the child's age group.

KRA may, at its discretion, apply funds paid to a credit for future participation of a child in association activities.

KRA may (or may not) issue refunds at its discretion to members removed for behavior in conflict with league policy.

In the event that a refund under this policy is issued to a parent with multiple signups it will be issued at the last child signup rate.
