

GAA Parents, Coaches and Families,

Grassland Athletic Association has suspended our baseball and softball programs for the time being. We are hopeful to get back on the fields in April, but as of right now we are in a “wait and see” holding pattern. Grassland Park remains open to the public however the restrooms are locked.

If you do attend the fields, please be cautious and courteous to those you may encounter, and please follow the prevention recommendations of the CDC found [here](#).

Thank you for your patience as GAA and the rest of the community navigate the road ahead. If we receive any future updates, then we will notify you and your coaches as soon as these updates become available to us.

Chris McElhiney, Program Director

Paul Jeter, GAA President
