

# USD 259 School Soccer Practice Sites

## Available to SCSA teams

USD 259 and SCSA contract each soccer season allowing SCSA teams to practice on USD 259 playgrounds or soccer fields. Schools listed on this contract are released to SCSA for practices on a **first come, first served basis**. Field usage schedule must be coordinated with all other soccer teams using same sites including AYSO and YMCA teams.

- If there is construction involving heavy equipment at a site or soccer areas are fenced off or blocked by construction fencing, soccer practices and games are prohibited.
- Gyms are not to be used unless scheduled directly through the Rental Services Offices on a separate contract. As of Fall 2016, SCSA does not have a contract with USD 259 for any indoor gyms or buildings. Any team making this request must contract separately with USD 259, Cindy David at Property Services Office.
- Teams are required to pick up all trash following each use. **Leave the practice site cleaner than you find.**
- Any damage or loss to BOE buildings or grounds must be reimbursed by SCSA. This in turn will be sent to the team causing the damage with potential suspension or fines.
- The school building(s) will not be open for use of restrooms, fountains, etc.
- KSYSA liability insurance certificate is on file with the school district.
- Park all vehicles in designated parking areas only. Do not allow vehicles on grassy grounds or in unauthorized areas.
- Use of all tobacco products is prohibited in or on all school district property.
