GBL COVID-19 UPDATE APRIL 21st

We hope you and your family are safe during this unprecedented time. All of us at GBL are just as anxious to get back on the field as you and the players are. However, for now we must continue to follow the guidelines set forth by the State and Local governments as it pertains to the pandemic. As we have said before, our main priority is the health and safety of our players, families and community.

These are trying times for sure, but we want you and your family to know that we are thinking about you - we miss our GBL family! We are still very hopeful that we can play ball this season. After Gov. Bill Lee's announcement yesterday, we are even more hopeful that we will be able to return in the near future. We have put together several contingency plans so that we will be ready when this has passed. We remain in contact with local healthcare professionals and will continue to do so moving forward. We are also communicating with other area youth sports organizations and monitoring procedures that other organizations across the country have put in place with regards to the COVID-19 pandemic.

We also want you to know we have added some ways for you to stay connected. In addition to our website and Facebook page, you can also find us on Twitter (@gbl_baseball) and on You Tube. We will be adding more content to our social media platforms as we move forward. You can access any of these directly through our home page on our website at www.gblbaseball.org

With Spring upon us, it is a perfect time to encourage athletes to take advantage of the weather and get some work in at home. We have some simple drills posted to our You Tube page (on our website as well) that they can do at home. If nothing else just get out and throw the ball around or swing a bat. We miss baseball and softball, and we know our players are as well.

Again, we are all in this together and we care tremendously about all of our GBL families. Please stay safe, stay healthy and stay positive. We will continue to keep you updated and hopefully soon we will be able to see you at the ballpark!

Stay safe,
The GBL Executive Board of Directors
