

COVID-19 RETURN TO PLAY GUIDELINES AND PROTOCOLS FOR GBL PRACTICES

BASEBALL & SOFTBALL

ARRIVAL TO VENUE

- All participants, spectators, and employees must adhere to six-foot physical distancing while at the facility.
- .Must conduct daily symptom assessments by coaches and players (self-evaluation). Anyone experiencing symptoms must stay home.*
- All events will have staggered start times so arrivals and departures will be different.
- Please use the designated entrance at Cameron Brown based on your child's age division.

PRACTICE GUIDELINES AND PROTOCOLS

- Must adhere to six-foot social distancing practices off the field of play.
- Parents must wait in their cars and may not enter the field complex.
- Parents for 7- & 8-Year-olds will be allowed to walk their child to and from the fields for practice but otherwise must remain in their cars.
- For T-ball, Jr. Coach Pitch and U6 softball one parent will be allowed to be around the field area remaining social distanced from other parents.
- Playing field capacity is 25 or less for each field.
- Hand Sanitizer and Disinfectant will be available to all teams.
- No one is allowed in the dugouts during practices.
- No touch rule – players should refrain from high-fives, handshakes, and other physical contact with teammates .
- Team equipment bag should only be handled by the coach.
- Whenever possible, equipment and personal items should have proper separation and should not be shared. If equipment must be shared, proper sanitation should be administered between users.
- Coaches are required to wear masks in the parking lot and outside the field. Coaches do not have to wear masks while on the field.
- It is recommended that players do not wear masks while participating in sports.
- Coaches will be asked to avoid any drills that may create excessive contact between players.
- Coaches will be asked to assist keeping players socially distanced when not in practice mode.
- Small group work is suggested when possible.
- Once our game schedule starts there will no further practices.

* Per the CDC, symptoms include cough, shortness of breath or difficulty breathing, fever, chills, repeated shaking with chills, muscle pain, headaches, sore throat, and new loss of taste or smell.
