

TAYSA TALK

UPDATES AND CURRENT NEWS FROM TAYSA

The Fall Season is here....

It's hard to believe but summer is just about behind us and soccer season will be in full swing before you know it.

Travel Program – Our Travel teams start practice next week as they prepare for their opening matches on Saturday, 9/8. Coaches will be in touch with practice schedules and other important information as we get started. We do still have openings for a couple of our teams and are still working to finalize coaches. If you know anyone interested please reach out to a board member.

In-Town Program – We are in the final push to finalize registrations in order to begin creating teams across all age groups for the fall. If you have not yet registered please do so ASAP in order to be assigned to a team. As always we are looking for more volunteers to help with our In-Town program this coming year. Please let us know if you would be willing to coach or help out in some other way on Saturday mornings.

Coach opportunities – It's no secret we are short on volunteers to coach our teams. No experience is necessary and many of our long time coaches started with little to no experience at some point. TAYSA has some great resources available to new coaches so if you're on the fence or hesitant to jump in I would tell you to go for it. Being on the fields with your kids is something you will not regret!!

Thank You!

Thank you to the **Crean** and **Gates** families for hosting trainers in their homes for a week in July during the British Soccer Camp.

Thank you to **Phil Falzone** for facilitating pick up soccer throughout the summer. This allowed for players of all ages to work on their skills and get out and play all summer.

Skill of the Week

With each new issue of TAYSA Talk we will present a video clip with instruction of a soccer move or skill. These can be practiced at home to help develop footwork and increased technical skills.

Have your player take a look at the below link to our Skill of the Week.

JUGGLING
