## Sending Emails (Discussions)

Click to send an "email" to team

A screenshot of the 'New Discussion Topic' form. At the top is a red header with the title and a close button. A note says: '\* Posting a discussion will email the selected Team Members below.' The form has a 'Subject:' field with a yellow warning box below it that says 'Subject is required!'. Below that is a 'Message:' field with a rich text editor toolbar (bold, italic, underline, list, link, unlink, Format). Underneath is a file attachment section with a paperclip icon, instructions, and a 'Select File' button. At the bottom is a 'File Title or Description:' field with a placeholder 'Entered title will display on Team Page'. Below that are two checked checkboxes: 'Notify Team Member By Email:' with 'Include Team Volunteers' and 'Include Associated Accounts and Participants'. At the very bottom right are 'Cancel' and 'OK' buttons.

Click the boxes to include all teammates
