The Council will be asked to confirm the selection by a simple majority vote. Dismissal, if needed, shall follow a similar procedure. (An annual hiring period from June 1 to May 31 is recommended to give an overlap with the election of officers. Accounts shall be arranged to reveal the League's status from the date of one report to the next.

Section 2.

Financial arrangements shall be finalized before they apply, e.g. referees' fees throughout an entire season shall be known before the season begins, although they may be scheduled to

change at some date during the season.

Section 3.

In compliance with Article I, Section 2, the Treasurer shall submit a written financial report and shall provide copies for every team. The report must include but not need to be limited to the following headings:

Section 6.

Reimbursement shall be in accordance with proper auditing procedures and shall be paid only upon presentation of receipt, and notice of approval for purchase amounts over \$50.00 by the President.

Section 7.

Section 9.

At the end of the fiscal year the Treasurer shall prepare the following:

1. An Income Statement for the year ended August 31.
2. A Balance Sheet as of August 31.
3. All necessary papers for submission to the IRS.

Article III Playing Season

Section 1.

The official playing season of this League will run from September 1 to August 31. The official season will consist of a Major Season and, if the Executive Committee so desires, a Summer Season.

Section 2.

Games are scheduled on Sundays. Game start times can begin at 10 AM and no later in the day that allows the game to be concluded with sufficient daylight. Only teams with artificial turf fields as their home field will be allowed to schedule 10 AM start times. Games can be played at other times, with mutual consent of the teams involved. The designated League official can direct the teams to play postponed games on a specific date.

Section 3.

The Major Season will commence on the first Sunday in October and end by the last Sunday in May, exclusive of playoffs and championship games. If final games are rained out this last Sunday, they will be played on the next available Sunday.

Section 4.

Games affecting League or local cup standings will not be scheduled on the Sunday nearest Thanksgiving, Christmas, New Year's Day, July 4th, or on Easter Sunday, except make-up games by the mutual consent of the managers.

Article IV Promotion and Relegation

Section 1.

At the end of each season, teams within a division shall be ranked by the highest number of points. When teams have the same number of points, the following tie-breakers, in order, will determine rankings: head-to-head competition, goal differential, and goals for. When being used for division championship, only head-to-head competition will be considered; if still even, a single game play-off with overtime (2-15 minute), and penalty kicks as in FIFA law will be used.

Section 2.

The League shall have 3 open divisions. The top division, henceforth called the First Division, will consist of no less than 8 and no more than 12 teams. The next highest division shall be named the Second Division. The Second Division will consist of no less than 10 and no more than 16 teams unless the requirements for a Third division are not met, in which case all teams not in the First Division would be grouped together in the Second Division. The next highest

division shall be named the Third Division. The Third Division will consist of no less than 10 teams. Only the Third Division may be further divided into sections (or conferences). The Executive Committee shall make this decision, with guidance from the council. The Executive Committee shall have the power to expand or contract each division as needed within the above guidelines. Further, they shall have the power to create or dissolve divisions based on team participation and competitiveness and with guidance from the Council.

Section 3.

Teams shall be promoted and relegated throughout the divisions, based on the number of teams in the HIGHER division. The number of teams relegated/promoted (in each division) shall adhere to a table as follows:

| # of Teams | # of Teams Relegated Promoted |
|------------|-------------------------------|
| 8 or less | 1 |
| 9 - 11 | 2 |
| 12 - 14 | 3 |
| 15+ | 4 |

The Executive Committee shall have the power to increase or decrease the number of teams being promoted or relegated in order to decrease or increase the number of teams in a given division. Further, the Executive Committee shall have the power to divide the teams in each the Third Division into conferences, as it sees fit, based on the number of teams in any given the Third Division and guided by the General Council. A team cannot decline promotion, with the exception of an existing club reserve team. The League shall not force the dissolution of a club system. If the club reserve team declines promotion, the third place team will be offered promotion; if the third place team declines, the fourth place team will be offered promotion, if the fourth place team declines, the highest relegated team will be allowed to remain in the upper division.

Section 4.

Teams which disband, withdraw, or are expelled during the season will forfeit all succeeding games. Teams that are suspended will forfeit games scheduled during the period of suspension. League standings will reflect the above forfeitures.

Section 5.

New teams entering the League will start at the bottom division. There will be no exceptions to this rule. Thus the only entrance to the higher divisions will be through promotion according to Section 2 or 3. New teams that meet the requirements may enter the Masters' Division. Existing Masters' Division teams changing to another division at the beginning of a Major Season must start at the bottom division.

Section 6.

The Major Season alone counts for promotion and relegation. Results of a Summer Season have no effect on these. The placement of teams for the optional Summer Season is the same

as defined for the Major Season except as follows. Some teams may elect not to participate in summer play, creating unusual opportunities for promotion for the summer. Teams which do not want to play in the division to which they would normally be assigned must so indicate when registering for the Summer Season. These requests will be honored subject to the rights of existing teams and limitations of the summer schedule. If sections are used in the summer, the division winner may be determined by playoff rather than intersectional play.

Teams that entered as a club in a prior Summer Season will be permitted to do so again and be placed in separate divisions.

Section 7.

A team which does not compete during any Major Season forfeits its place in the League.

Section 8.

A separate Masters' Division can exist within the League. Each team within this division must have a minimum of eleven players 35 years of age or older duly registered at all times during the playing season.

Section 9.

Each Masters' Division team is allowed a maximum of three players ages 31-34 registered at any time during the season. The USSF age control date of December 31 of the first half of the Major Season shall continue to be the Masters' Division control date. At least six teams must be registered to constitute a viable Masters' Division. Depending on the number of teams in the Masters' Division, games may be interscheduled with the lowest playing division. For Masters' Division only: unlimited substitution will be allowed during dead ball situations.

Article V

Player Registration

Section 1.

When a team disbands, withdraws or is expelled from the League, all players are automatically released. These players become free agents provided their share of debts to the League are determined by the Treasurer to be satisfied and they are not under any disciplinary suspension.

Section 2.

No teams shall have more than 25 nor less than 11 registered players at any one time. Teams not having a minimum of 11 registered players at any one time will forfeit all scheduled games until they meet this minimum registration.

Section 3.

No more than 18 players may be eligible and listed on the line-up sheet.

Section 4.

A team using an ineligible player shall forfeit the game or games in which such violations took place and may be suspended from the League.

Section 5.

No player may be registered so as to enable him to play in the last two(2) scheduled games of any subsequent League competition before the next season. The registration period may be extended when a substantial number of make-up games are played after the last two scheduled games. The Executive Committee may establish specific dates for cutting off registration.

Section 6.

The designated League official has custody of all records pertaining to the registration, transfer and release of all players under the jurisdiction of this League, and shall administer the rules and regulations pertaining to such matters. For identification purposes, a player, when registering, will present one clear photograph to be used on his new player pass.

Section 7.

Once a player has signed for a team, no club or person shall attempt to induce such a player to leave his club during the official season without at least 14 days notice in writing to the club or team for which said player has signed.

Section 8.

The registration of an amateur player with any club or team may be terminated only by mutual consent or by the authority of this League. A player may not register for another club or team until his release form, properly executed in ink or typed, is in possession of the registration chairman, or the Executive Committee has authorized the release of the player in the event of conflict. Such players cannot help with any other club or team in League competition until 16 days have elapsed. In release and re-registration with his former team, the player must wait 10 days. Any club or team executing a release form must forward the same to the League registration chairman, with a copy to the player, within 2 days of its execution.

Section 9.

Players who have debts outstanding from previous teams, regardless of which season is involved, may not sign with any other team until these debts have been resolved. The registration chairman will keep a list of such debtors, as he is notified by the team managers, and consult this list before registering players. The Executive Committee will decide the validity of such debts in cases of dispute.

Section 10.

A maximum of 2 professional players may sign for a team in this League and only two(2) may play for one team in a game.

Section 11.

The registration chairman shall inform the team involved of the receipt of all registration and release forms and acknowledge waiver requests.

Section 12.

This League recognizes registrations and releases of other State Associations within USSF. If an amateur or professional player moves into the jurisdiction of this League, it shall be necessary for him to obtain a release from his former association in order to register with this League in the State of Georgia.

Section 13.

Youth players may play on teams in this League in accordance with regulations of the USYSA and GSSA.

Section 14.

All passes (which are non-transferable) issued by this League shall be recognized by all teams of this League except as otherwise designated by the Executive Committee.

Section 15.

In order to retain the division status attained by a team during the prior Major Season, a team must retain at least 6 of the players registered at the conclusion of the preceding Major Season, along with the manager of the previous season. If this is not satisfied, then the largest number of players, minimum of six, claiming the spot will retain the spot. In the event of a tie, the Executive Committee shall decide.

Section 16.

Any player suspended by the D & P Committee must serve the suspension (games) while on the active roster of his team line-up sheet. Only games where the suspended player is listed on the game-day lineup sheet will count toward suspension served, even when the player changes teams during or between seasons.

Club System

Section 1.

To qualify for club system(two or more teams) status, each of the associated teams shall at all times during the playing season maintain a minimum of eleven(11) active registered players per team.

Section 2.

The maximum number of active registered players on any of the associated teams is 22.

Section 3.

If at any time during the playing season an associated team falls below the minimum active registered player requirement, it will forfeit the right to operate within the club system until such time as the minimum requirement is met.

Section 4.

The club system will consist of a primary team and an associated team or teams of different divisions that do not compete with one another. Where more than one associated team is involved in interdivisional promotion and relegation, the primary team shall be designated as that of the higher competitive division.

Section 5.

Associate team players are permitted to play "up" to any club system team for which they meet League and divisional eligibility requirements and providing that they do not play for two teams within a 7 day period. There must be sufficient room on the primary team's roster, to bring up a player.

Section 6.

Club system player movements to a higher competitive division are immediate (and the laminated USSF pass from the lower division may be used). Although movement down between competitive divisions or to a non-competitive division will also be immediate, an official transfer action through the League Registrar must be properly executed and the pass returned with the transfer request (a temporary League pass may be used for the following two weeks until the new laminated USSF pass is issued). There must be roster space available

on the official listing of registered active players to facilitate transfer down. Additionally, a sixteen(16) day waiting period will be required before the player can again "play up".

Article VI Game Officials

Section 1.

Only officials in good standing with USSF, GSSA and this League shall be permitted to officiate. If because of unforeseen circumstances an affiliated referee is unable to officiate, teams may agree upon some other person to act in the emergency.

Section 2.

The referee shall be the sole judge as to the playing conditions of the field and players' equipment, with the exception the field manager (i.e. the person responsible to the owner or administration regarding the use of said field), may declare the field unusable if, in his opinion, it may harm the field and thereby cause withdrawal of permission to use it in the future. Every effort should be made to ascertain the field condition in ample time (3 hours prior to kick-off) and the opposing manager and league should be notified in case it is considered unplayable by the field manager. If this is not possible, the field manager still retains final authority on the use of the field.

Section 3.

The game officials' fees and traveling expenses shall be set at the annual general meeting of the League Council. Fees will be required only for games actually played or those forfeited on the field in accordance with these By-Laws. Method of payment by teams to the League shall be decided at a League meeting prior to the season.

Section 4.

The referee should submit a report on all games under the jurisdiction of this League, on the form provided, to the League within 2 days after the game has been played. The League will not pay full referee fees for any games for which a report has not been postmarked by 2 days after the event. Penalties for late reports shall be set as proposed and voted by the Council.

Article VII Rules for Games

Section 1.

It shall be the responsibility of the Home Team to prepare the field for play. Line marking shall be clear and goals erected and equipped with nets suitably secured, and corner flags shall be erected at each corner of the field and shall be a minimum of five feet in height. Failure to comply shall result in the forfeit of the game, but nevertheless, a friendly game may be played.

Section 2.

All players on a team except for the goalkeeper shall wear identical shirts or jerseys, each with an easily distinguishable unique number thereon. Where both team colors are similar, as decided by the referee, it is the responsibility of the Home Team to change.

Section 3.

Team uniforms (color and design) shall be registered with the League Secretary. This registry shall be published, and copies supplied to all new teams on entry to the League. Team colors

should be selected, not only to avoid confusion, but to give teams identity.

Section 4.

The referee shall be the sole judge of the suitability of the players' equipment; and subject to the field manager, of the playing conditions of the field. The referee shall be guided by the requirement of the League that each player be properly suited in identical shirts or Jersey's as registered by the league and like colored shorts.

Section 5.

A completed line-up sheet (GAME REPORT) must be submitted to the referee prior to the game. This sheet will include names and numbers of all players participating in the match. Any players serving suspension will be noted on the report and their status as serving a suspension written by their names or in the margin. A duplicate copy for the opposing manager will be provided. Any number of players within this list may be substituted except that any player substituted during a half may not return during that same half. Any player not listed BY NAME AND NUMBER by kick-off shall not be permitted to play.

Section 6.

Each player must present an official Player Pass to the referee for identification purposes before he will be allowed to play in any game. The referee after comparing the passes to the line-up sheet (GAME REPORT), will return all passes except those of the starting eleven players to the manager. Each manager shall have the right to inspect the player passes of the opposing team which are presented to the referee; the referee may postpone such inspection until half-time, if, in his opinion, such inspection will delay the start of the game. Upon substituting, a player shall present to the referee the substituting player's pass. The same procedure shall be used for the second half of any game. All player passes with the exception of the one(s) for an ejected player shall be returned to the team manager after the conclusion of the game. If a team has sufficient players, but does not have the required player passes, it shall forfeit the game. In the event the age of a player participating in a Masters Division match is challenged, the player must submit proof of age (driver's license with photo) to the opposing team manager in the presence of the referee. If the player is unable to produce evidence of age, the referee shall note this on the Game Report. The player will have one week to submit verifiable picture identification to the League. Failure to do so may result in forfeiture of the match by the team of the player in question.

Section 7.

The referee shall allow any team a maximum of fifteen (15) minutes beyond starting time to have the field prepared to his satisfaction, to field the team and furnish appropriate player passes. The referee shall either declare a forfeit, following Section 9, or start the game no later than fifteen minutes after scheduled game time. Fielding a team means having the minimum number of players on the field, properly equipped and ready to play.

Section 8.
