**County Rep Report** – Jeff Degitz

- Self Help in September. This is the primary request please prepare as letters will be going out
- Facility use will end for indoor use as of this week. Outdoor use will still be entertained and the B of Ed will control these. Hoping to have indoor use back in place by October. Unsure if the B of Ed moves in if they can coexist and there are custodial coverage issues particularly for New Windsor Middle School. This will need to be further discussed. It has been made clear that this is a key sight and would be devastating to lose the gym for this community. It is understood that the use is of need but the logistics are the problem.
- Discussion on issues of a co-located facility with the B of E (i.e. noise and access)
- Discussion of the design challenges with regard to this site and what impact this may have. Design firm hired to review facilities to see what would need to happen to some of the buildings.
- It is safe to say the fields will be useful
- Our shed will remain there and there is “No need to move” the shed from the current location at New Windsor Middle.
-
