Borrowing of Players Rules

We encourage Associations to create smaller and more teams for every sport when possible. This will provide more playing time for more registrants on a normal basis and therefore more enjoyment from playing for the Youth of our Parish. This does sometimes create playing issues with regards to having enough at game time. Therefore, we allow “borrowing” of players when possible so that more participants can play more. Below is a listing of restrictions which must be adhered to for the betterment of the programs.

- 1) Players may be borrowed only from other teams in the same age group and sport and from the same Association.
- 2) A team may borrow as many players as is necessary to reach a roster total of two (2) more than the minimum number of positions on the court.
- 3) Borrowed players must wear their original team uniforms when playing.
- 4) Borrowed players may not play in the first quarter.
- 5) Borrowed players may not start either the third or fourth quarters or any overtime.
- 6) No team may borrow the same players a second time before all other available players from the league have been borrowed.

Clarifications: For rules #4 and #5 above; If a team does not have five (5) players available to start any of these quarters then a borrowed player may start. A borrowed player is never allowed to start the first, third or fourth quarters if the team has at least five (5) team roster players available.

Violations of these procedures and rules are not in the best interest of all our participants! Violators can and will be disciplined by their Associations and/or LRPD.
