

STEM Mentoring Program

SPACE IS LIMITED!

Ages: Boys/Girls ages 6-10 years old

Program Start Date: March 23rd 2019

Program will run continuously every weekend through the Spring/Summer

Time: 9-10am

Location: Southard School

Cost: FREE (pre- registration required)

Program will cover:

Explorations in STEM Mini Module

In each Explorations in STEM mini-module, mentees will develop teamwork skills, build trust with one another, and explore introductory STEM topics.

Mission Moon

Mentors and mentees will work together as a *FIRST*[®] LEGO[®] League Junior (FLL Jr.) team to research what it would take to live on the Moon.

World of Water

Mentors and mentees will do fun activities to explore water and discover how they are connected to their local watershed. They will also identify daily choices they can make to conserve water and protect the environment.

Crazy 8's

Mentors and mentees will explore the math behind their favorite activities while working together to play cooperative games. Students will build items like catapults and pan flutes.

ALL MUST SIGN FOR UP FOR REMIND 101 text alert
This is how ALL will be notified about any changes in the program
