

CHALL COACHING FIELD RESPONSIBILITIES

MANAGERS AND COACHES AT ALL LEVELS ARE RESPONSIBLE FOR:

- 1. Preparing the field by lining the base paths and batter's box before each game.**
- 2. Putting the bases away after the last game played for that day.**
- 3. Raking and/or dragging the field after each game, making sure to rake all infield dirt off the grass.**
- 4. Putting away all drags, rakes, field lining equipment.**
- 5. Cleaning dugouts after each game. Get your players involved. It will teach them to be responsible members of society.**
- 6. Be extra careful to keep trash and recyclables in their respective containers.**
- 7. Dump the trash cans into the dumpster if needed. This will most likely fall on whoever has the last game on a Saturday. Use common sense and dump the trash before filled to overflowing.**
- 8. Trash/Recycling collection is Tuesday for the field. If you are around on Monday evening, set the blue recycle containers in a line near the dumpster so the truck can access them.**

I will do my best to make sure the foul lines are painted, the trash and recycle cans are out where they need to be, and the grass is mowed if spring ever comes. We have to work together to make this work. I am always available for questions/suggestions. Thanks.
